DISCLAIMER

This Draft Report has been prepared by HSA GLOBAL CONSULTANTS solely for the purpose of appraising the Client about establishing the viability of the project under consideration. This report delivered does not and should not be deemed as the basis for any financial investments. No representation or warranty, express or implied is made as to, and no reliance should be placed on, the fairness, accuracy, completeness or correctness of such information or opinions contained herein. The information contained in this report is only current as of its date. Certain statements made in this presentation may not be based on actual historical information or facts, and may be "forward looking statements", including without limitation those relating to the general business plans and strategy that could be pursued, its future financial condition and growth prospects, future developments in its industry and its competitive and regulatory environment, and any other statements which contain words or phrases such as "will", "expected to", "horizons of growth" etc., or similar expressions or variations of such expressions. These forward-looking statements involve a number of risks, uncertainties and other factors that could cause actual results, opportunities and growth potential to differ materially from those suggested by the forward-looking statements. Department and their employees and advisors make no representation or warranty and shall incur no liability under the Law of Contract, Tort, the Principles of Restitution or unjust enrichment or otherwise for any loss, expense or damage, accuracy, reliability or completeness of this document, which may arise from or be incurred or suffered in connection with anything contained in this document, any matter deemed to form part of this document, the information and any other information supplied by or on behalf of Department or their employees, any consultants or otherwise arising in any way from the selection process for the Project. HSA GLOBAL CONSULTANTS has taken due care and caution in the compilation of data as this has been obtained from various sources including which it considers reliable.
